

Katia's Farm School Scholarship

Call for Nominations

A generous scholarship has been established by a HealthBarn USA family in their daughter's name who loves her farm school experience at HealthBarn USA located at Abma's Farm, Wyckoff, NJ. They want to offer a child who ***requires financial support and wants the opportunity*** to learn how to live a healthy-lifestyle during a week of summer camp 2011.

The ultimate "farm-to-fork" summer camp for children, ages 5-12 is held weekly from 9:00 – 3:00 p.m. and includes a naturally, nutritious breakfast, lunch and snack each day. The campers rotate between growing, harvesting and cooking with their own hand-grown produce; learning about nutrition and environmental sciences through games and activities; participating in natural arts and crafts; and being active through yoga and creative play.

To make a nomination, please email a brief summary about the child and why you believe he/she will benefit from the HealthBarn USA experience to info@healthbarnusa.com or call 201-891-2066. All nominations will be kept confidential.

The deadline for submissions is Friday, April 29; and we will make a selection by May 13, 2011.

Thank you for your support in helping children and their families!
